Professional Summary

Software and development engineer, graduated from the École Marocaine des Sciences de l'Ingénieur (EMSI) in Ingénierie Informatique et Réseaux, MIAGE option. My main stack is Java and Angular. My expertise covers application design, the implementation of microservices architectures and the integration of advanced technologies such as Spring Boot, Kafka, Docker and artificial intelligence. Rigorous, autonomous, with a strong analytical mindset and great adaptability, I favor teamwork to deliver high-performing solutions.

Education

École Marocaine des Sciences de l'Ingénieur (EMSI) **2022 – 2026**
Diplôme d'ingénieur d'État en Ingénierie Informatique et Réseaux, option MIAGE *Rabat*

Lycée Louis Le Grand **2019 – 2021**
Baccalauréat en Sciences Expérimentales, option Physique *Rabat*

Professional Experience

DXC Technology **February 2026 – July 2026**
Full Stack Developer Intern | Java, Spring Boot, Angular, Kafka, PostgreSQL, Docker, Python *Technopolis, Sala Al Jadida*

- Designed and developed, following an Agile Scrum methodology (sprints, daily stand-ups), an intelligent intern tracking and engagement platform integrating artificial intelligence, gamification and microservices architecture (Spring Boot, Angular, Kafka, PostgreSQL, Docker).
- Integrated an AI-based conversational agent to automate support, guidance and follow-up for interns, reducing the manual workload of handling requests.

DXC Technology **July 2025 – August 2025**
Full Stack Developer Intern | Java, Spring Boot, Angular, MySQL *Technopolis, Sala Al Jadida*

- Developed, within an Agile Scrum team, a full stack web application (Java, Spring Boot, Angular, MySQL) for centralized incident management and Service Level Agreement (SLA) tracking.

Holding Al Omrane **July 2024 – August 2024**
IT Intern | Snipe-IT, Ubuntu Server, Nutanix, Excel *Rabat, Mahaj*

- Deployed and configured Snipe-IT, an IT asset management solution, on a Nutanix hypervisor with Ubuntu Server.
- Migrated and integrated the complete asset inventory from Excel into the new solution, improving the reliability of IT equipment tracking.

DXC Technology **September 2023**
Network Intern | Cisco Packet Tracer *Technopolis, Sala Al Jadida*

- Studied and compared the RIP, OSPF and EIGRP routing protocols using Cisco Packet Tracer simulations.

Projects

Microservices E-commerce Platform | *Spring Boot, Angular, PostgreSQL, Docker* 2025 – 2026
- Designed and developed an online commerce platform based on a microservices architecture, with user, role, product, cart and order management.

Hospital Appointment Application | *Java, Android Studio, SQLite Room* 2024 – 2025
- Developed an Android mobile application for managing patient appointments, with local data persistence using SQLite Room.

Banking Simulator | *Java, Swing* 2024 – 2025
- Developed a banking simulator with a Java Swing graphical interface, including account management and common banking operations.

Training Sales Platform | *Python, Django* 2023 – 2024
- Developed a Python/Django web platform for selling and booking online training courses.

Technical Skills

Languages: Java, Python, JavaScript, C, C++, C#, PL/SQL, HTML, CSS
Frameworks and Technologies: Spring Boot, Angular, Django, Java Swing, Android Room, microservices architecture
Databases: PostgreSQL, MySQL, SQLite
DevOps and Messaging: Docker, Kafka, Git, GitHub
Development Tools: IntelliJ IDEA, Visual Studio Code, Visual Studio
Systems, Cloud and Virtualization: Linux, Windows, Microsoft Azure, VirtualBox, Hyper-V
Languages Spoken: French, Arabic, English
